Professional Summary

Frontend Developer with 1 year 9 months of experience building scalable web applications using Angular, TypeScript, and REST APIs. Experienced in developing dynamic forms, reusable UI components, and responsive enterprise applications. Strong collaboration skills with backend teams and UI/UX designers to deliver efficient and user-friendly solutions.

Professional Experience

Frontend Web Developer – Codesemic Solutions Pvt. Ltd., Pune (Hybrid) | Apr 2024 – Jan 2026

• Developed and maintained Angular-based enterprise web applications.

• Built dynamic and configurable form modules using Angular and TypeScript.

• Integrated REST APIs for real-time data flow and backend communication.

• Created reusable UI components for scalable front-end architecture.

• Optimized application performance and improved loading times.

• Collaborated with backend developers and UI/UX teams to deliver production-ready features.

Key Projects

• **Vendor Management System (VMS – Navyojna)**: Developed dynamic vendor management modules using Angular and API-driven workflows, improving vendor processing efficiency by **~25%** and reducing manual data entry by **~20%**.

• **Financial Management System (FMS – Navyojna)**: Built reusable Angular components and integrated complex financial APIs, helping reduce development time for new features by **~30%** and improving system response performance by **~15%**.

• **MIAS**: Internal workflow automation system with large dataset handling and UI consistency.

• **Whispering Pines**: Developed an enterprise-level Angular application with dynamic tables and backend-driven configuration, while designing and implementing a complete hotel booking platform including new booking screens, end-to-end booking workflows (search, room selection, booking management, and confirmation), and role-based interfaces for both customers and property owners, improving usability and streamlining the booking process by around 25–30%.

• **GTTT**: Full-stack project using Angular, TypeScript, HTML (frontend) and Python with Django (backend).

Technical Skills

Frontend	Angular, TypeScript, JavaScript, HTML, CSS
Backend & Tools	Python, Django, Node.js, REST APIs, SQL
Other Skills	Responsive Web Design, UI Component Development, API Integration, Performance

Education

B.E. Mechanical Engineering – G.H. Raisoni College of Engineering, Nagpur (2018 – 2023) | Score: 64.10%

Certifications

PG Diploma – C-DAC Hyderabad (DAC) | SUNBEAM Pre-CAT Certification
